

Calcium Bolus

agilan® Complementary feed

Mineral feed

For cattle

Composition

Skimmed milk powder, magnesium oxide, potato starch, dextrose

Analytical constituents

Crude protein	3.7 %
Crude fibre	2.8 %
Crude fat	3.7 %
Crude ash	60.4 %
Magnesium	3.3 %
Calcium	22.3 %
Sodium	0.0 %
Phosphorus	0.0 %

Content of additives per kg

Vitamins:

Vitamin A (3a672a)	230,000 I.U.
Vitamin D ₃ (3a671)	46,000 I.U.
Vitamin E (3a700)/ all rac- α -tocopherylacetate	4,600 mg

Preservatives:

Calcium formate (E238)	700,000 mg
------------------------	------------

Feeding recommendation

2 – 3 pieces (each 110 g) per day, administer orally with commercial donors.

Feeding instructions

Due to the increased content of vitamin A and D₃ compared to complete feed, this complementary feed may only be used up to max. 3.9 % of the daily ration. Simultaneous use with vitamin D₂ is not allowed.

Recommended use

Calcium Bolus is based on the particularly well-tolerated calcium formate and is characterized by a needs-based dosage of vitamin A, D₃ and E supplements. By the continuous delivery of formate bound Ca, Calcium Bolus reduces the risk of feeding-related milk fever (hypocalcemia) and improves the energy supply.

Storage

Store in a dry place.

Seal container well after use, so that there is no moisture.

Shelf life guarantee is only valid for unopened packages in dry, cool storage (2–25 °C).
