Copper as copper (II) chelate of glycine hydrate (3b413)	375 mg
Manganese as manganous (II) sulphate, monohydrate (3b503)	2,925 mg
Zinc as zinc chelate of glycine, hydrate (3b607)	2,925 mg
Iodine as calcium iodate, anhydrous (3b202)	58 mg
Selenium as sodium selenite (3b801)	28 mg

#### Feeding recommendation

1 - 3 days in the morning and in the evening 1 bolus (6.5 g). It is recommended that a veterinarian's opinion be sought before use.

#### Feeding instructions

Due to the increased content of vitamins and trace elements compared to complete feed, this complementary feed may only be used up to max. 1.7 % of the daily ration fed to calves.

#### Recommended use

After birth, with loss of appetite and with acute nutrition and postural stressful situations. Increases vitality and strengthens the body's defenses.

#### Storage

Close containers immediately after removal and store in a dry place!  
The product must not get into the hands of children!
